INDIANA UNIVERSITY
Bloomington Campus Master Plan
Planning Priorities for the Bloomington Campus

• Respect the character of the historic core.
• Restore the Jordan River corridor.
• Define and enhance neighborhood edges.
• Create a compact, walkable campus.
• Increase and enhance gathering spaces.
• Renovation is a priority.
• Preserve natural features and memorable open spaces.
• Sustainably manage physical and natural resources.
• Provide the infrastructure necessary to support campus growth and change.

Memorial Hall Lounge – 1947

Memorial Hall Lounge – 2017
Residents on Stairs of Forest (Goodbody) Hall – 1941

Goodbody Hall – 2017
Projects In Planning
Regional Academic Health Center/Academic Health Sciences Building
Project Goals

• A regional Academic Health Center in partnership with the IUH Bloomington Hospital will:
  
  – Co-locate many IUB clinical, educational and research programs with IUH Bloomington
  
  – Foster expanded collaboration among IUB’s extensive health sciences programs and expanded engagement between those programs and the hospital
  
  – Permit expansion of health programs for better training and health outcomes for the region
Design Summary

Regional Academic Health Center/Academic Health Sciences Building

Estimated Completion: 2020

The overall facility includes an approximately 620,000 sf hospital with both in-patient and out-patient clinical services for IUHB, while the approximately 115,000 sf academic building provides health education space for IU programs. The academic building is three stories while the hospital is a total of five stories at the east bed tower. Building facades consist predominately of limestone with brick accents and large areas of glass.
